Read this Product Disclosure Sheet before you decide to take out the Citi PayLite. Seek clarification from your institution if you do not understand any part of this document or the terms and conditions

CITIBANK BERHAD**Citi PayLite****June 4, 2021****1. What is Citi PayLite?**

Citi PayLite allows you to convert your selected retail transactions, single or combined multiple purchases into monthly instalments.

2. What do I get from this product?

You will be able to manage expenses by converting selected retail transaction(s) on your Citibank credit card into affordable monthly instalments.

After the approval of the Citi PayLite, you will be charged with the interest rate agreed upon at the date of approval throughout the tenure regardless of any subsequent revisions to the Citi PayLite interest rates offered.

Effective interest rate (%)	Equivalent flat interest rate (%)	Tenure (months)
Up to 17.9% p.a.	Up to 10.57% p.a. depending on the effective interest rate & tenure applied for	6, 12, 18, 24, 30, 36, 48 or 60 months

Effective Interest Rate is calculated based on monthly reducing balance repayment method whereby as the original loan sum is repaid, the interest per month reduces progressively across the tenure of the loan.

The minimum amount eligible for conversion under the Citi PayLite is RM500 for both Single Purchases conversion and Multiple Purchases conversion. Entry amount is lowered to RM50 when this is done via Citibank Online or Citi Mobile App.

3. What are my monthly obligations?

The Citi PayLite interest will be computed based on the agreed effective interest rate on a reducing balance repayment method basis. For the avoidance of doubt, the first month's interest will be calculated based on the effective interest rate and pro-rated on a 365 days and on a 366 days basis in a leap year from one day after the approval date until the next immediate statement cycle date and will be reflected (together with any fees or charges) in the next immediate monthly statement.

The subsequent monthly instalment calculation remains the same where it shall be a fixed amount and consists of both principal and interest where the interest component of each monthly instalment is computed by: $\text{Effective interest rate} \times \text{outstanding principal amount} \div 12$ [months], save for the final month's interest component, which is computed by: $\text{equal monthly instalment amount} - \text{outstanding principal}$.

The Citi PayLite monthly instalment amount is fixed. Any pre-payment or excess payment will not reduce the Outstanding Principal or the subsequent Citi PayLite monthly instalment and will only be treated by the Bank as advance payment.

You will not be entitled to any reward points and/or cash rebates from the Citi PayLite.

Illustration of the monthly repayment calculation:
